

BrightPlanet's Deep Web Silo Services simplify web research and analytics. You can order 'topic specific' Deep Web Intel Silos allowing your team to concentrate on creating "New Intelligence" and spend less time drowning in Big Data.

How does it work?

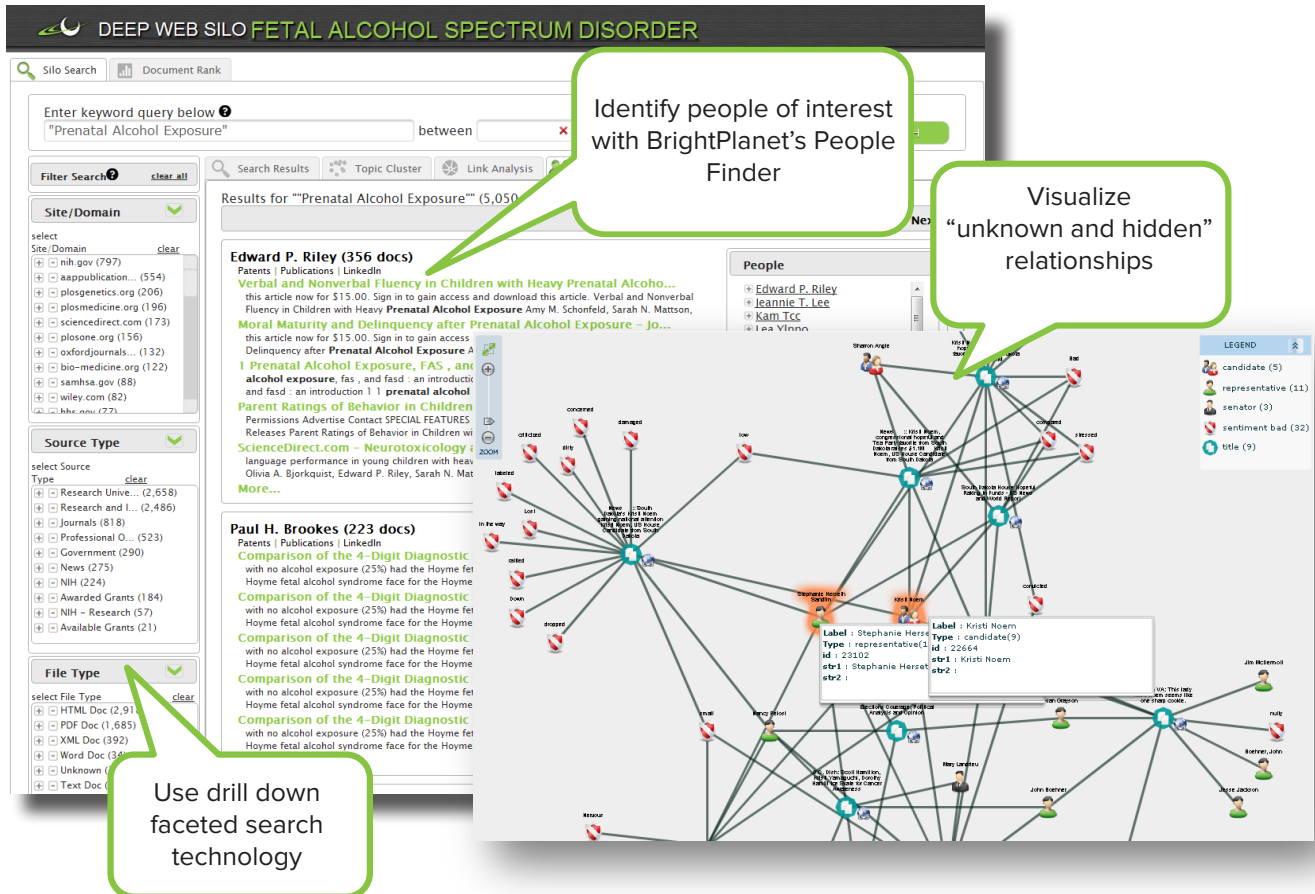

Intel Silos are created by BrightPlanet's Deep Web Investigators, working on your behalf to find and harvest relevant data from any source on the Web. We then enrich the data and provide you with custom reports and/or access to the silos integrating any analytic or research tool you need.

New Intel From Big Data

- Competitive Intel
- Fraud Detection
- Domain Management
- Anti-Counterfeiting
- Brand Protection
- Social Media Monitoring
- Intellectual Property Rights
- Trade Secret Theft Monitoring
- Pure Research
- Threat Traffic Monitoring

Analytic Opportunities

- ✓ Drill Down Faceted Search
- ✓ Link Analysis
- ✓ People Finding
- ✓ Semantic Analytics
- ✓ Geo-Location
